**TARIFF FORMAT**

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4<sup>th</sup> revised Page 14 cancels the 3<sup>rd</sup> revised Page 14.
- C. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. An asterisk designates all revisions made in a given filing (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**PRELIMINARY STATEMENT**

Airus, Inc. (“Airus”) has been granted authority by the California Public Utilities Commission to provide competitive local exchange services within the State of California to Customers located in exchange areas served by AT&T California (“AT&T”), Citizens Telecommunications Company of California, Inc./Citizens Communications Company (“CTC”), SureWest Telephone/SureWest Communications (“SureWest”) and Verizon California, Inc. (“Verizon”).

This tariff contains all effective rates, terms and conditions for intrastate end-user local exchange and carrier access services originated from and terminated to central office codes assigned to Airus. This tariff applies to intrastate access service supplied to Customers for origination and termination of traffic to and from Central Office codes directly assigned to Airus, Inc. and traffic from those central office codes assigned to other carriers that transits Airus’ facilities.

Except as provided in 3.1.3(A), this tariff applies only to the extent that services provided hereunder are used by a Customer for the purpose of originating or terminating intrastate communications. A communication is "intrastate" only if all points of origination and termination are located within the State of California.

**SERVICE AREA MAPS**

The Company provides competitive local exchange service in California within the service territories of AT&T California (“AT&T”), Citizens Telecommunications Company of California, Inc./Citizens Communications Company (“CTC”), SureWest Telephone/SureWest Communications (“SureWest”) and Verizon California, Inc. (“Verizon”).

The Company concurs in and hereby incorporates by this reference all current and effective service territory and local exchange boundary maps filed with the California Public Utilities Commission by CTC (Schedule Cal. P.U.C. No. AB), SureWest (Schedule Cal. P.U.C. No. A3) and Verizon (Schedule Cal. P.U.C. No. A-1).

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RATES**

Applicability

This Schedule sets forth the rates and charges applicable to Carrier's service offerings. The rates and charges are applicable to all local services provided to business/non-residential customers as indicated.

Territory

Carrier will provide service within the base rate areas of all exchanges, as said exchanges are defined on the map filed on Sheet 9-T herein, as authorized by the California P.U.C.

Notes

- (1) When billing functions on behalf of Carrier are performed by local exchange telephone companies, or others, the payment conditions and regulations of such companies apply, including any applicable interest and/or late payment charge conditions.
- (2) Carrier will ensure an industry standard blocking rate no greater than P.01.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RATES** (Cont'd)

Applicable Taxes and Surcharges

Pursuant to Resolution T-16901, all telecommunications carriers are required to concur with the Commission's Public Programs all-end-user surcharges and the Reimbursement Fee as filed by AT&T California in its tariff for surcharges and fees. Airus will apply the current surcharge and fee amounts in that AT&T California tariff on the respective end user bills. All federal excise taxes, and state and local sales, use, and similar taxes, are billed as separate items and are not included in the quoted rates. Gross receipts tax will not be billed as a separate line item. Customer will be billed for and is liable for payment of all applicable federal, state and local taxes and surcharges,

Adherence to Nonpublic Utility Provider Services Law

Carrier will adhere to all applicable nonpublic utility provider services rules and law, including, but not limited to, Section 741.2 of the California Public Utilities Code.

### RULE 1 - DEFINITIONS

Certain terms used generally throughout this tariff are described below.

#### **Act**

The Communications Act of 1934 (47 USC 153(R)), as amended by the Telecommunications Act of 1996, Public Law 104-104, 110 Stat. 56 (1996), codified throughout 47 USC and as interpreted by applicable law.

#### **Advance Payment**

A payment required before the start of service.

#### **Access Services**

The Company's intrastate telephone services offered pursuant to this tariff.

#### **Automatic Number Identification (ANI)**

A multi-frequency, signaling common switching feature that provides the automatic transmission of a seven or ten digit number and information digits to the customers premise for calls originating in the LATA to identify the calling party or station.

#### **Calling Party Number**

(CPN) means a Signaling System 7 parameter whereby the ten (10) digit number is used to identify the calling or originating party.

#### **Central Office Prefix**

The first three digits (NXX) of the seven digit telephone number assigned to an end user's local exchange service.

#### **Central Office Switch**

A switch used to provide Telecommunications Services, including, but not limited to an End Office Switch or End Office which is a switching entity that is used to terminate Customer station lines for the purpose of interconnection to each other and to trunks; and, a Tandem Switch or Tandem Office or Tandem that is a switching entity that has billing and recording capabilities and is used to aggregate traffic and deliver traffic to carriers' aggregation points, points of termination, or points of presence, and to provide Switched Exchange Access Services. A Central Office Switch may also be employed as a combination End Office/Tandem Office Switch.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Collocation**

An arrangement where the equipment of a local exchange carrier is installed and maintained at the premise of another LEC.

**Common Carrier**

Denotes any individual, partnership, association, joint- stock company, trust, government entity or corporation engaged for hire in intrastate communication by wire or radio, between two or more exchanges.

**Commission**

California Public Utilities Commission, the State agency responsible for the regulation of telecommunications service within a particular state's border.

**Common Channel Signaling Network**

Digital data network carrying signaling, routing and control information which interfaces with the telecommunications network.

**Company**

Airus, Inc., the issuer of this tariff.

**Consumer Affairs Branch**

Refers to the CPUC office where consumers may complain about a telephone, gas or electric utility service or billing problem within California, which they have not been able to resolve with the utility. Consumers may write or call the CPUC at: CPUC, Consumer Affairs Branch 505 Van Ness Avenue, Room 2003, San Francisco, CA 94102 Or; email to "consumer-affairs@cpuc.ca.gov" Phone 1-415-703-1170, or 1-800-649-7570. For TDD, call 1-800-229-6846.

The person, firm or corporation that orders service and is responsible for the payment of charges and compliance with the Company's regulations.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Customer Proprietary Network Information (CPNI)**

Information that relates to the quantity, technical configuration, type, destination, location, and amount of use of a telecommunications service subscribed to by any Customer of a the Company and that is made available to the Company by the Customer solely by virtue of the Company-Customer relationship; and information contained in the bills pertaining to telephone exchange service or telephone toll service received by a Customer

**Digital Signal Level 1 (DS1)**

1.544 Mbps first level signal in the time division multiplex hierarchy. In the time division multiplexing hierarchy of the telephone network, DS1 is the initial level of multiplexing.

**Digital Signal Level 3 (DS3)**

The 44.736 Mbps third level in the time division multiplex hierarchy. In the time division multiplexing hierarchy of the telephone network, DS3 is defined as the third level of multiplexing.

**End Office**

With respect to each NPA-NXX code prefix assigned to the Company, the location of the Company's "end office" for purposes of this tariff will be the point of interconnection associated with an NPA-NXX code as listed in Rule 17.

**End User**

A customer of telecommunications service who is not a telecommunications carrier.

**Exchange**

A unit generally smaller than a Market Service Area (MSA), established by a local service provider for the administration of communications services in the specific area. One or more exchanges comprise a MSA.

**Exchange Telephone Company**

Denotes any individual, partnership, association, joint- stock company, trust, or corporation engaged in providing switched communication within an exchange.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Extended Area Service (EAS)**

A switching and trunking arrangement which provides for non-optional, unlimited, two-way, flat rate calling service between two or more telephone exchanges, provided at either the applicable local exchange rate or the applicable local exchange rate plus an EAS increment rather than at the toll message rate.

**Facility or Facilities**

Lines, conduits, ducts, poles, wires, cables, cross-arms, receivers, transmitters, instruments, machines, appliances, instrumentalities and all devices, real estate, easements, apparatus, property and routes used, operated, owned or controlled by a telecommunications company to facilitate the provision of telecommunications service.

**FCC**

The Federal Communications Commission

**Grandfathered**

Services ordered under the provisions of this tariff but are no longer available to new customers.

**Individual Case Basis**

A condition in which the regulations (if applicable), rates and charges for an offering under the provision of this tariff are developed based on the circumstance in each case.

**Intrastate Access Service**

Provides for a two-point communications path between a Customer's premises or a collocated interconnection location and an end user's premises for originating and terminating calls within the state.

**Internet Traffic**

Any traffic exchanged between Company and the Customer that is originated by or delivered to an Enhanced Service Provider, including an Internet Service Provider.

**Local Access and Transport Area (LATA)**

A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Local Exchange Routing Guide (LERG)**

The telecommunications industry database tool used to provision NPA/NNXs and provide routing information to facilitate call completion.

**Local Traffic**

Traffic, including but not limited to Internet Traffic, that is originated by a Customer, user, subsidiary or affiliate of the Customer on the Customer's network or service and terminates to the Company or another customer of the Company on the Company's network, within a given local calling area, or expanded area service ("EAS") area as defined in the originating carrier's effective Customer Tariffs, or, if the Commission has defined local calling areas applicable to all LECs, then as so defined by the Commission.

**Loss**

The value placed on injury or damages due to an accident caused by another's negligence, a breach of contract or other wrongdoing.

**Meet Point Billing**

A situation when two or more exchange telephone companies are involved in the provisioning and billing of telecommunications service.

**MOUs**

Minutes of Use

**North American Numbering Plan (NANP)**

A three-digit area code (also known as a Number Plan Area (NPA), and a seven digit telephone number, made up of a three digit central office code and a four-digit station number. The NANP is administered by the North American Numbering Plan Administrator (NANPA).

**Originating Carrier**

The carrier whose end user originates a call on the carrier's network or switching equipment.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Percentage of Interstate Usage (PIU)**

The interstate jurisdictional use of a telecommunications service, as reported by the Customer. This percentage is stated as a whole number percentage (a number from 0 through 100 percent) which is the best estimate of the percentage of the total use of the service that will be interstate in nature by the Customer.

**Percent of Local Usage (PLU)**

The local jurisdictional use of a telecommunications service as reported by the Customer. This percentage is stated as a whole number percentage (a number from 0 through 100 percent) which is the best estimate of the percentage of the total use of the service that will be local in nature by the Customer.

**Point of Interconnection (POI)**

The physical location, building or equipment where two separate networks connect to each other in order to pass telecommunications traffic and signaling.

**Recurring Charges**

The monthly charges to the Customer for services, facilities and equipment which continue to apply for duration of the service.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Service Commencement Date**

The first date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the Service Order or this tariff in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and the Customer may mutually agree on a substitute Service Commencement Date. If the Company does not have an executed Service Order from a Customer, the Service Commencement Date will be the first date on which the service or facility was used by a Customer.

**Service Order**

The request for access services, either written or electronic, executed by the Customer and the Company in the format devised by the Company. Such a request for service by the Customer and the acceptance of the request by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date. Should a Customer use the Company's access service without an executed Service Order, the Company will then request the Customer to submit a Service Order.

**Serving Wire Center**

The wire center from which the Customer designated premises would normally obtain dial tone from the Company.

**Shared**

A facility or equipment system or subsystem that can be used simultaneously by several Customers.

**Signaling Transfer Point (STP)**

A specialized switch that provides SS7 network access and performs SS7 message routing and screening.

**INTRASTATE SWITCHED ACCESS SERVICES TARIFF**

**RULE 1 - DEFINITIONS (Cont'd.)**

**Tandem Transit or Third Party Tandem Transit**

An arrangement that provides indirect Interconnection, via a third party's tandem, that is used by the Company and the Customer for the reciprocal exchange of local and IntraLATA Toll Traffic between their respective networks and/or service.

**Telecommunications Service**

The offering of Telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, provided through a system of switches, transmission equipment, or other facilities (or combination thereof) by which a subscriber can originate and terminate a Telecommunications Service, regardless of the facilities used. Telecommunications Service generally provides the Customer with a telephonic connection to, and a unique telephone number address on, the public switched telecommunications network, and enables such Customer to place or receive calls to all other stations served by the public switched telecommunications network. It also provides service within a telephone exchange or within a connected system of telephone exchanges within the same exchange area operated to furnish subscribers intercommunicating service of the character ordinarily furnished by a single exchange

**Terminating Carrier**

The carrier who terminates a call to the carrier's end user a call on the carrier's network or switching equipment.

**Termination Point**

The point of interconnection at which the Company's responsibility for the provision of service ends.

**Toll Traffic**

Between stations in different exchange areas for which there is a separate charge not included in contracts for local exchange service.

**Transit Traffic Service**

An access service, including but not limited to all Section 251(b)(5) traffic, ISP-bound traffic, intraLATA toll traffic (not delivered to an IXC), and CMRS intraMTA traffic, in which the Company transits traffic originated by a third party who is not an End User or other user of the Company's local exchange or exchange access service through its wire centers to a Customer. Transit Traffic Service does not include 911, 411, 976, 311, 611, 500, 950, directory assistance, 0+ local, and 0+ operator services.

**RULE 2 - DESCRIPTION OF SERVICES**

2.1 Access Services

Switched Access Service, which is available to Customers for their use in furnishing their services to end users, provides a two-point communications path between a Customer's premises (or a collocated interconnection location) and an end user's premises. It provides for the use of common terminating, switching and trunking facilities. Switched Access Service provides for the ability to originate calls from an end user's premises to a Customer's premises (or a collocated interconnection location), and to terminate calls from a Customer's premises (or a collocated interconnection location) to an end user's premises in the LATA where it is provided. Switched Access Service must be ordered separately for each LATA in which the Customer desires to originate or terminate calls.

Switched Access Service is provided in the following service categories, which are differentiated by their technical characteristics and the manner in which an end user or Customer accesses them when originating or terminating calls.

FGD Access, which is available to all Customers, provides trunk side access to Company end office switches with an associated uniform 10XXX or 101XXXX access code for the Customer's use in originating and terminating communications. End users may also originate calls to a selected FGD Access Customer by dialing 1+NPA-NXX-XXXX when using the Company's presubscription service.

Toll Free Data Base Access Service, which is available to all Customers, provides trunk side access to Company end office switches in the originating direction only, for the Customer's use in originating calls dialed by an end user to telephone numbers beginning with the prefix "800", "866", "888", or "877", for example. Toll Free Data Base Access Service is offered in conjunction with Feature Group D Access.

Transit Traffic Service is comprised of various facilities, connections, features and functions. It provides for the use of common terminating, common switching and switched transport facilities of the Company but does not include local switching. The originating party is responsible for payment of any appropriate rates applied to MOUs transited, unless otherwise specified.

**RULE 2 - DESCRIPTION OF SERVICES**

2.1 Access Services (Cont'd.)

(A) Originating 800 FG Access

800 Data Base Access Service is a service offering utilizing originating Trunk side Switched Access Service. When an 8XX + NXX + XXXX call is originated by an End User, the Company will utilize the Signaling System 7 (SS7) network to query an 800 data base to identify the Customer to whom the call will be delivered and provide vertical features based on the dialed ten digits. The call will then be routed to the identified Customer over FGD switched access. The 800 series includes the following. service access codes: 800, 888, 877, 866, 855, 844, 833 and 822.

(B) Originating FG Access is assessed for each minute of use.

Originating 800 FG Access includes the delivery of 8XX traffic that is initiated by a Wireless Provider's End User and is delivered from a CMRS Mobile Telephone Switching Office to the Company switch and then to a Customer. The Company will charge for all elements of service that it provides in routing such traffic.

A Basic or Vertical Feature Query charge is assessed for each completed query returned from the data base identifying the Customer to whom the call will be delivered whether or not the actual call is delivered to the Customer. The Basic Query provides the identification of the Customer to whom the call will be delivered and includes area of service routing which allows routing of 800 series calls by telephone companies to different interexchange carriers based on the Local Access Transport Area (LATA) in which the call originates. The Vertical Feature Query provides the same Customer identification as the basic query and vertical features which may include: (1) call validation, (ensuring that calls originate from subscribed service areas); (2) POTS translation of 800 series numbers; (3) alternate POTS translation (which allows subscribers to vary the routing of 800 series calls based on factors such as time of day, place or origination of the call, etc.); and (4) multiple carrier routing (which allows subscribers to route to different carriers based on factors similar to those in (3)).

2.1.2 Standard Rate Categories (Cont'd.)

(A) End Office Switching

The End Office rate category provides the local end office switching and end user termination functions necessary to complete the transmission of Switched Access communications to and from the end users served by the Company's end office. The End Office rate category consists of the Local Switching rate element.

The Local Switching rate element provides for: a) the use of end office switching equipment; b) the terminations for the end user common lines terminating in the local end office; and c) termination of a call at a Company Intercept operator or recording. The operator or recording tells a caller why a call, as dialed, could not be completed, and if possible, provides correct number. Intercept rates are assessed to Customer based on total number of access minutes. Automatic Number Identification (ANI) provides the automatic transmission of a seven or ten digit number and information digits to the Customer's premises for calls originating in the LATA, to identify the calling telephone number. The ANI feature is an end office software function which is associated on a call-by-call basis with (1) all individual transmission path in a trunk group routed directly between an end office and a Customer's premises or, where technically feasible, with (2) all individual transmission paths in a trunk group between an end office and an access tandem, and a trunk group between an access tandem and a Customer's premises. The Dedicated Switch Port provides for the termination of Tandem Switched Transport to an end office.

Access minutes for all Switched Access Service subject to the Dedicated Switch Port will be multiplied by the per minute rate set forth in Section A.1.4

(B) Tandem Switching

Tandem Switching is an access service providing transmission and tandem switching between the Customer designated premises and the Company switch(es) where the Customer's traffic is switched from or to an entity other than an End User for purposes of originating or terminating the Customer's communications.

In addition to Tandem Switching, associated rate elements include:

Tandem Switching Transport Termination  
Tandem Switching Transport Facility  
Interconnection Charge

(1) Tandem Switching Transport Termination

This rate element applies to the non-distance sensitive portion of the Tandem Switched Transport for transmission facilities between the Company network and the end office.

(2) Tandem Switching Transport Facility

This rate element applies to the distance sensitive portion of the Tandem Switched Transport for transmission facilities between the Company network and the end office.

(3) Interconnection Charge

This rate element will be applied for interconnection with the Company's network for all Switched Access minutes of use that originate or terminate at a Company end office.

Except as stated in the following paragraph, Local Transport service is provided in conjunction with Qwest Communications Company. Charges for Local Transport service are computed in accordance with Rule 9.1.5 preceding (Ordering, Rating, and Billing of Access Services Where More Than One Exchange Telephone Company Is Involved). For purposes of determining Local Transport Mileage, distance will be measured from the wire center that normally serves the Customer's premises to the end office switch(es).

(1) Local Transport-Entrance Facility

A Local Transport-Entrance Facility provides the communication path between a Customer's premises and the Company serving wire center of that premises for the sole use of the Customer. The Local Transport-Entrance Facility category is comprised of a DS1 rate. A Local Transport-Entrance Facility is required whether the Customer's premises and the serving wire center are located in the same or different buildings.

(2) Local Transport-Common Switched Transport

(a) The Local Transport Termination rate provides for that portion of the voice frequency transmission path at the end office and at the Customer's premises.

(b) The Local Transport Facility rate provides for that portion of the voice frequency transmission path between the end office and at the Customer's premises.

(3) Transport Multiplexing

The Local Transport multiplexing feature allows for a DS3 facility to be channelized into 28 DS1 services or for a DS1 facility to be channelized into 24 Voice Grade or Voice Grade equivalent services. Multiplexing is available at the serving wire center of the Customer premises or a collocation location, or at the company's premises. The multiplexing rates and charges are set forth in Rate Schedule B.1.4.

The Local Transport-Direct Trunked Transport provides the transmission path from the serving wire center of the Customer's premises to an end office or as an option from the serving wire center to a tandem. This transmission path is dedicated to the use of a single Customer.

The Local Transport-Direct Trunked Transport rate category is comprised of a monthly fixed rate and a monthly per mile rate based on the facility provided. The fixed rate provides the circuit equipment at the ends of the transmission links. The per mile rate provides the transmission facilities, including intermediate transmission circuit equipment, between the end points of the circuit. The Local Transport- Direct Trunked Transport rate is the sum of the fixed rate and the per mile rate. For purposes of determining the per mile rate, mileage will be measured as airline mileage between the serving wire center of the Customer's premises and the end office or directly to the access tandem using the V&H coordinates method.

(7) Common Channel Signaling Access

Common Channel Signaling Access (CCSA) is comprised of a STP Port Termination rate and a STP Link Transport rate.

The STP Port Termination rate provides for the point of termination to the signal switching capability of the STP.

The STP Link Transport rate provides for the transmission facilities between the serving wire center of the Customer designated premises and the Company STP.

(A) Toll Free Data Base Access Service

Toll Free Data Base Access Service is a service offering utilizing originating trunk side Switched Access Service. The service provides for the forwarding of end user dialed toll free calls to a Company Service Switching Point which will initiate a query to the database to perform the Customer identification and delivery function. The call is forwarded to the appropriate Customer based on the dialed toll free number. Any dial around compensation relating to pay telephones will be billed in accordance to procedures and rates proscribed by the Federal Communications Commission. The Company reserves the right to bill end users of its toll free service for any dial around compensation costs the Company may incur.

(1) Customer Identification Charge

The Toll Fee Data Base Access Service Customer Identification applies for the identification of the appropriate Customer. The charge is assessed to the Customer on a per query basis and may include an area of service which may range from a single NPA/NXX to an area consisting of all LATAs and NPAs in the State of California.

(2) Toll Free Number Reservation

The Toll Free Number Reservation service applies to the request of the Customer to have the Company attempt to reserve a specific toll free number for the Customer. The Company will not guarantee that a specific toll free number in any of the toll free prefixes (800, 877, 888, 866 or future prefixes as designated by NANPA) will be available at the time a Customer requests the specific number.

(B) Local Exchange Service

1) Definition

As used in this section, "local exchange call" means a telephonic communication (a) that is originated by a company that is authorized by the appropriate regulatory agency to provide local exchange telephone service, (b) that originates and terminates within a single "exchange area" or "local calling area" as defined in the approved tariffs of the originating company, and (c) that is dialed to an NPA-NXX code directly assigned to the Company in the State of California.

2) Description

Local Exchange Service is a service offering providing trunk side access to the Company's end office switches in the terminating direction only, for use by authorized providers of local exchange telephone service for the completion of local exchange calls that originate in the State of California and terminate to the Company's end users in the State of California. Local Exchange Service must be provided to a Point of Interface (POI) which will be established jointly by the Company and the Customer at a location within the State of California and in the same LATA as the Company end office at which the local exchange call will terminate. Local Exchange Service provides a trans- mission path between the POI and the Company's end user.

2.2 Miscellaneous Services

2.2.1 Presubscription

- (A) Presubscription is an arrangement whereby an end user designate to the Company an interexchange carrier (IC) to access, without an access code, for intrastate interLATA calls and interstate interLATA calls subject to the Company's FCC Access Tariff. This IC is referred to as the end user's Primary Interexchange Carrier (PIC). The end user may select as its PIC the Company, or any other IC that orders originating Feature Group D Switched Access Service at the end office that serves the end user. After the end user's initial selection of a pre-designated IC, for any additional change in selection, a non-recurring charge, as set forth in Rate Schedule C.1.1, applies.
- (B) At the request of a new or existing end user served by a Feature Group D end office, the Company will provide a list of ICs the end user may select as its PIC. At no additional charge for the initial selection, the Customer may choose either of the following options.
- Designate an IC as a PIC and dial 10XXX or 101XXXX to reach other ICs.
  - Designate that they do not want to be presubscribed to any IC and choose to dial 10XXX or 101XXXX for all calls to all ICs.

New end users subscribing to the Company's Local Exchange Service that do not specify a PIC will default to the Company as their initial PIC selection. Subsequent to the installation of Local Exchange Service, and after the end user's initial selection of a PIC, for any additional change in selection, a nonrecurring charge as set forth in Rate Schedule C.1.1, applies. This charge is billed to the end user that is the subscriber to the Local Exchange Service and applies only for selection of an IC which provides only intrastate service.

2.2.2 Number Portability

(A) General

Number Portability is a service arrangement provided by to subscribers of the Company's Local Exchange Access Service, as set forth in 2.1.3(B) preceding. Number Portability allows an End User who switches from the Company's local exchange service to that of another certified local exchange carrier to retain the use of their existing Company assigned telephone number, provided the Customer remains at the same location.

Number Portability utilizes a telephone number and electronic switching facilities to automatically forward all incoming calls to the Company assigned telephone number to the terminating telephone number assigned by another certified local exchange carrier.

Number Portability provides a single call path for the forwarding of no more than one simultaneous call to the forwarding call number. Additional call paths for the forwarding of multiple simultaneous calls are available on a per path basis at an additional charge.

All other access, local and toll rates and charges for all services ordered by the Customer, as set forth in other rules of this tariff and the Company's local exchange and federal access tariffs, continue to apply.

The Company will provide the following services:

- Recording Service
- Automatic Number Identification (ANI)
- Billing Name and Address (BNA)

2.3.1 Recording Service

Recording is the entering on magnetic tape or other acceptable media the details of Customer messages originated through Switched Access Service. Recording is provided 24 hours a day, 7 days a week.

The Company will provide Recording Service in association with the offering of Feature Group D Switched Access Service for Customer messages that can be recorded by Company provided automatic message accounting equipment. At the request of the Customer, Recording Service will be provided for Feature Group D Switched Access Service on an end office and type of call basis. Type of call means message telecommunications service (MTS) including 700 and 900 Service, calls originating and/or terminating over a WATS access line, and station message detail recording for MTS and calls originating from a WATS access line.

The Company will provide Recording Service in its operating territory. The minimum territory for which the Company will provide Recording Service is all the appropriately equipped offices in a state operating territory for which the Customer has ordered Feature Group D Switched Access Service. A state operating territory of particular telephone company includes all its LATAs or market areas which are located in the same state including the areas in contiguous states which are assigned to such LATAs or market areas and served by the same Company.

Station message detail recording is an optional feature which provides a record of customer messages originated by MTS and WATS access lines. Such detail will be provided as part of Feature Group D end office and type of call Recording Service when requested by the Customer.

2.3.1.1 Undertaking of the Company

- (A) The Company will record all customer messages carried over FG D Switched Access Service that are available to Company provided recording equipment of operators. Unavailable customer service messages will not be recorded. The recording equipment will be provided at locations selected by the Company.
- (B) A standard format for the provision of the recorded customer message detail will be established by the Company and provided to the Customer. If, in the course of Company business, it is necessary to change the format, the Company will notify the involved Customers six months prior to the change. Assembly and Editing, Provision of Customer Detail, Data transmission to a Customer location, special orders for recording and program development will be provided to the Customer on a contractual basis.
- (C) Recorded customer message detail which is used at the request of the Customer to provide Message Processing and Message Bill Processing Service is not retained by the Company for longer than forty-five (45) days. - (2) An "Examination" will, for purposes of this section, constitute a reasonable inquiry on a single issue or a specific topic related to Billing and Collection Service for a stated reason.

Upon concurrence by both parties that errors or omissions exist, adjustment will be made by the proper party to compensate for any errors or omissions disclosed by such examination or audit.

(D) Audit Provision

All information received or reviewed by the Customer or its authorized representative is to be considered confidential and is not to be distributed, provided or disclosed in any form to anyone not involved in the audit, nor is such information to be used for any other purposes.

(E) Minimum Period and Minimum Monthly Charge

The minimum period for which Recording Service without sorting is provided and for which charges apply is one month.

(F) Cancellation of a Special Order

A Customer may cancel a Special Order for Recording Service on any date prior to the service date. The cancellation date is the date the Company receives written or verbal notice from the Customer that the Special Order is to be canceled. Their verbal notice must be followed by written confirmation within ten (10) days. The service date for Recording Service is the date the Customer requests the recording to start. If the Customer is not charged the recording rate, the ANI rate as set forth in Rate Schedule D.1.2 will apply for each ANI record delivered to the Customer.

2.3.3 Billing Name and Address Service

Billing Name and Address (BNA) Service is the provision of the complete billing name, street address, city or town, state and zip code for a telephone number assigned by the Company.

BNA Service is provided for the sole purpose of permitting the Customer to bill its telephone communications service to its end users and may not be resold or used for any other purpose, including marketing activity such as market surveys or direct marketing by mail or by telephone.

The Customer may not use BNA information to bill for merchandise, gift certificates, catalogs or other services or products.

BNA Service is provided on a manual basis. On a manual basis, the information will be provided by mail. Information may be provided by either voice telecommunications or through electronic mail if agreed to by both the Company and the requesting Customer.

BNA information is furnished for sent-paid, collect, bill to third number, 700 and 900 service messages and messages charged to a calling card that is resident in the Company's data base.

- (A) A request for information on over 100 and up to 500 telephone numbers should be mailed to the Company. The Company will provide the response by first class U.S. Mail within ten (10) business days.
- (B) The BNA information will be provided for the calling number furnished to the extent a billing name and address exists in the Company' records, including non-published and non-listed numbers. If the billing name and address information for a specific calling number is confidential due to legal, national security, end user or regulatory imposed requirements, the Company will provide an indicator on the confidential records.
- (C) The Company will provide the most current BNA information resident in its database. Due to normal end user account activity, there may be instances where the BNA information provided is not the BNA that was applicable at the time the message was originated.

- (B) The Customer will institute adequate internal procedures to insure that BNA information, including that related to non-published and non-listed telephone numbers, is used only for the purpose set forth in this tariff and that BNA information is available only to those Customer personnel or agents with a need to know the information. The Customer must handle all billing name and address information designated as confidential by the Company in accordance with the Company's procedures concerning confidential information. The Company will provide to the Customer a statement of its procedures concerning confidential information.
- (C) The Customer will not publicize or represent to others that the Company jointly participates with the Customer in the development of the Customer's end user records, accounts, data bases or market data, records, files and data bases or other systems it assembles through the use of BNA Service.
- (D) When the Customer orders BNA Service for both interstate and intrastate messages, the projected percentage of interstate use must be provided in a whole number to the Company. The Company will designate the number obtained by subtracting the projected interstate percentage from 100 (100-projected interstate percentage = intrastate percentage) as the projected intrastate percentage.

This whole number percentage will be used by the Company to apportion the rates and nonrecurring charges between interstate and intrastate in those circumstances where the recorded message detail is not sufficient to permit the Company to determine the appropriate jurisdiction. This percentage will remain in effect until a revised report is received as set forth following.

Effective on the first of January, April, July and October of each year the Customer may update the jurisdictional report. The Customer will forward to the Company, to be received no later than twenty (20) calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June and September, respectively. Except where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (e.g., February, May, August and November). No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentages to be the same as those provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentages to be the same as those provided in the order for service.

(E) The Company will use reasonable efforts to provide accurate and complete lists. The company makes no warranties, expressed or implied, as to the accuracy or completeness of these lists.

2.3.3.3 Rate Regulations

- (A) Service Establishment Charges apply for the initial establishment of BNA Service on a manual basis.
- (B) A charge applies for each request for BNA information for a telephone number provided on a manual basis.

The Company will keep a count of the requests and of the messages processed. The Company will bill the Customer in accordance with these counts whether or not the Company was able to provide BNA information for all requests and messages.

- (C) Where the recorded message detail is sufficient to determine a message is an intrastate message, the rates set forth in Rate Schedule D.1.3 apply to each such message.

Usage for which the recorded message detail is insufficient to determine jurisdiction will be prorated by the Company between interstate and intrastate.

The percentages provided in the reports as set forth in 2.3.3.2(D) preceding will serve as the basis for prorating the charges. The intrastate charges are determined as follows: For usage sensitive (e.g., requests or messages processed) chargeable rate elements, multiply the intrastate percent times actual use times the stated tariff rate.

3.1 Access Services

The Company will accept both affirmative orders and constructive orders for Carrier-Customer access services. The Company does not require a written service order for the initiation of switched access services to Carrier-Customers.

(A) Service Orders

The signing of a Service Order by the Carrier Customer and acceptance by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff, but the duration of the service is calculated from the Service Commencement Date. Should a Carrier Customer use the Company's access service without an executed Service Order, the Company may, at its option, request that the Carrier-Customer submit a Service Order. The Company may accept the Service Order either by submitting Billing Name and Address ("BNA") information to the Carrier Customer at the request of the Carrier Customer or by the Carrier Customer accepting PIC requests by End-User Customers that request the Carrier Customer as their PIC.

(B) Affirmative Service Order

A Carrier-Customer may affirmatively request the Company's switched access services either by placing a written request for the Company's service, by sending traffic to and/or accepting traffic from Company End-User-Customers and then submitting BNA requests; to the Company, or by allowing Company End-User-Customers to choose the Carrier Customer as their PIC and once processed, allowing Company End-User-Customers to utilize the Carrier-Customer as their primary IXC.

(C) Constructive Service Order

Alternatively, a Carrier Customer may constructively order the Company's services if it, without any explicit written request for service from the Company, avails itself of the Company's local exchange network. If a Carrier Customer solicits Company End-User Customers and Company End-User-Customers choose to access the Carrier Customer's network through the Company's local exchange network, the Carrier-Customer has constructively ordered Company's originating and/or terminating switched access services.

3.1 Access Services (Cont'd.)

3.1.1 Access Service Order

An Access Service Order is used by the Company to provide a Service. When placing an order for Access Service, the Customer will provide, at a minimum, the following information:

For Feature Group D Switched Access Service, the Customer will specify the number of busy hour minutes of capacity (BHMC) from the Customer's premises to the end office by traffic type. This information is used to determine the number of transmission paths. The Customer will also specify the Local Transport and Local Switching options. When FGD is ordered by specifying the number of trunks and direct routing to an end office is desired, the Customer will specify:

- the end office and
- the Local Transport and Local Switching options desired.

When FGD is ordered by specifying the number of trunks and end office routing via an access tandem operated by another Exchange Telephone Company is desired, the Customer will specify:

- the access tandem,
- the Local Transport and Local Switching options desired, and
- an estimate of the amount of traffic to be generated to and/or from each Company end office subtending another Exchange Telephone Company's access tandem.

In addition, for Feature Group D with the SS7 signaling option, the Customer will specify the switching point codes and trunk circuit identification codes for trunks with the SS7 signaling option, and the STP point codes, signaling link codes and link type for each Common Channel Signaling Access (CCSA) connection ordered. When a Customer orders FGD in trunks, the Customer is responsible to assure that sufficient access facilities have been ordered to handle its traffic.

3.1.1 Access Service Order (Cont'd.)

For 800 Data Base Access Service, the Customer will order the service in accordance with the preceding provisions set forth for Feature Group D. If the Customer desires any of the optional features available with 800 Data Base Service, the Customer will so specify on the order for service.

3.1.1.1 Access Order Service Date Intervals

Access Service is provided with one of the following Service Date Intervals:

- Standard Interval
- Negotiated Interval
- Advance Order Interval

(A) Standard Interval

A schedule of Standard Intervals applicable for Switched Access Services and is as follows:

Trunk Groups	Standard Interval
1 to 4 Trunks	28 Days
5 to 24 Trunks	30 Days

(B) Negotiated Interval

The Company will negotiate a service date interval with the Customer when:

- (1) There is no Standard Interval for the service, or;
- (2) The quantity of Access Services orders exceeds the quantities specified in the Standard Intervals, or;

When placing an Access Order, a Customer may request an Advance Order Interval for a service date of 12 to 24 months from the Application Date for the following services:

- A minimum of 24 voice grade equivalent Switched Access Service lines or trunks or 720 BHMCs

Orders for less than the minimum quantities will be accommodated under Standard or Negotiated Interval provisions. Advance Order Interval Access Orders are subject to all ordering conditions of Standard and Negotiated Interval Access Orders except for the following:

(1) Advance Payment

A nonrefundable Advance Payment will be calculated as follows:

Advance Payment (Nonrefundable)	The minimum monthly charge for the minimum period plus the applicable Nonrecurring Charges for the services ordered.

Any increase in the number of Switched Access Service lines, trunks or busy hour minutes of capacity or CCSA signaling connections will be treated as a new Access Order (for the increased amount only).

(A) Service Date Change Charge

Access Order service dates for the installation of new services or rearrangements of existing services may be changed, but the new service date may not exceed the original service date by more than thirty (30) calendar days. When, for any reason, the Customer indicates that service cannot be accepted for a period not to exceed thirty (30) calendar days, and the Company accordingly delays the start of service, a Service Date Change Charge will apply. #### 5.1 Customer Bills

The Company name will be identified on each Customer bill. Each bill will prominently display a toll-free number for service or billing inquiries, together with an address where the Customer may write to the Company. If the Company uses a billing agent, the Company will also include the name of the billing agent it uses. Each bill for telephone service will contain notations concerning the following:

1. When the bill will be paid by the Customer to the Company;
2. Billing detail, including the period of service covered by the bill;
3. Late payment charges and when they will be applied;
4. How the Customer may pay the bill;
5. How to contact the Company with questions about the bill;
6. If a Customer's bill contains charges for interLATA and interstate toll calling billed by the Company on behalf of an interexchange carrier authorized to provide those services then, the bill will include a toll-free number for service or billing inquiries.

Each bill will also include the following statement:

*"This bill is now due and payable; it becomes subject to a late payment charge if not paid within 30 calendar days of the invoice date. Should you have any questions regarding this bill please request an explanation from Your Company Name. "*

*"If you believe you have been incorrectly billed you may file a complaint with the California Public Utilities Commission, Consumer Affairs Branch, 505 Van Ness Avenue, San Francisco, California. To avoid having service disconnected, payment of the disputed bill should be made "under protest " to the CPUC or payment arrangements should be made agreeable to the Company pending the outcome of the Commission's Consumer Affairs Branch review. - (A) To safeguard its interests, the Company may require the Customer to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Customer of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount equal to:
  - (1) an estimated two months' customary use or estimated two months' bill where applicable. Customary use is calculated using charges for the previous three months' of service.
  - (2) the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable.
- (B) A deposit may be required in addition to an advance payment.

**RULE 7 - CUSTOMER DEPOSITS AND ADVANCE PAYMENTS (Cont'd.)**

7.1 Deposits (Cont'd.)

- (C) When a service or facility is discontinued, the amount of a deposit, if any, will be applied to the Customer's account and any credit balance remaining will be refunded. Before the service or facility is discontinued, the Company may, at its option, return the deposit or credit it to the Customer's account. If the amount of the deposit is insufficient to cover the balance due to the Customer's account, the Company retains the right to collect any amounts owing after the deposit has been applied plus any costs related to the collection of any remaining balance.

Deposits held will accrue interest at a rate specified by the Commission without deductions for any taxes on such deposits. Interest will not accrue on any deposit after the date on which reasonable effort has been made to return it to the Customer.

Deposits will be refunded with interest within 30 days after discontinuance of service or after 12 months of service, whichever comes first. Interest will be added to the deposit using the 3 month commercial paper rate published by the Federal Reserve Board, except under the following conditions: no interest will be given if the Customer has received a minimum of two notices in a 12-month period.

**RULE 8 -NOTICES**

8.1 Notices provided to the Customer by the Company will be as follows:

8.1.1 Rate Information:

- 1) Rate information and information regarding the terms and conditions of service will be provided in writing upon request by a current or potential customer. Notice of major increases in rates will be provided in writing to Customers and postmarked at least 30 days prior to the effective date of the change. No Customer notice will be required for minor rate increases or for rate decrease. Customers will be advised of optional service plans in writing as they become available. In addition, Customers will be advised of changes to the terms and condition of service no later than the company's next periodic billing cycle.
- 2) When a CLC provides information to a consumer which is allegedly in violation of its tariffs, the consumer will have the right to bring a complaint against the CLC.

8.1.2 Discontinuance of Service Notice

- 1) Notice by Customers:

Customers are responsible for notifying the CLC of their desire to discontinue service on or before the date of disconnection. Such notice may be either verbal or written.

8.1.2 Discontinuance of Service Notice

2) Notice by CLC

Notice to disconnect service for nonpayment of bills will be provided in writing by first class mail to the Customer not less than 7 calendar days prior to termination. Each notice will include all of the following information:

- a. The amount that is delinquent.
- b. The date when payment or arrangements for payment are required in order to avoid termination.
- c. The procedure the Customer may use to initiate a complaint or to request an investigation concerning service or charges.
- d. The procedure the Customer may use to request amortization of the unpaid charges.
- e. The telephone number of a representative of the Company who can provide additional information or institute arrangements for payment.
- f. The telephone number of the CAB where the Customer may direct inquiries
- g. Notification that local service may not be discontinued for nonpayment of Category III or other unregulated competitive services.
- h. The name and address of the Customer whose account is delinquent.

**RULE 9 - RENDERING AND PAYMENT OF BILLS**

9.1 Payment Arrangements

9.1.1 Payment for Service

The Customer is responsible for the payment of all charges for facilities and services furnished by the Company to the Customer.

(A) Taxes

The Customer is responsible for payment of any sales, use, gross receipts, excise, access or other local, state and federal taxes, charges or surcharges (however, designated) (excluding taxes on the Company's net income) imposed on or based upon the provision, sale or use of Network Services.

(B) Surcharges, Fees and Assessments

The Customer is responsible for payment of any surcharge, assessment or fee, including but not limited to universal service fees, 911 charges, right of way fees or other types of infrastructure fees, and regulatory assessments, where allowed by applicable law.

9.1.2 Billing and Collection of Charges

The Customer is responsible for payment of all charges incurred by the Customer or other users for services and facilities furnished to the Customer by the Company.

(A) Non-recurring charges are due and payable within thirty (30) days after the date of the invoice.

(B) The Company will present invoices for Recurring Charges monthly to the Customer, in advance of the month in which service is provided, and Recurring Charges will be due and payable within thirty (30) days after the date of the invoice. When billing is based upon customer usage, usage charges will be billed monthly for the preceding billing period.

(C) When service does not begin on the first day of the month, or end on the last day of the month, the charge for the fraction of the month in which service was furnished will be calculated on a pro rate basis. For this purpose, every month is considered to have thirty (30) days.

9.1 Payment Arrangements (Cont'd.)

9.1.2 Billing and Collection of Charges (Cont'd.)

- (D) Billing of the Customer by the Company will begin on the Service Commencement Date, which is the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.
- (E) If any portion of the payment is received by the Company after the date due, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a late payment penalty will be due to the Company. The late payment penalty will be the portion of the payment not received by the date due, multiplied by a late factor. The late factor will be the lesser of:
  - (1) a rate of 1.5 percent per month; or
  - (2) the highest interest rate which may be applied under state law for commercial transactions.
- (F) The Customer will be assessed a charge of twenty-five dollars (\$25.00) for each check submitted by the Customer to the Company which a financial institution refuses to honor.

9.1.5 Ordering, Rating and Billing of Access Services Where More Than One Exchange Telephone Company is Involved

Meet point billing applies when more than one Exchange Telephone Company is involved in the provision of Access Service. All recurring and nonrecurring charges for services provided by each Exchange Telephone Company are billed under each company's applicable rates as set forth in following.

The Company accepts and adheres to the Ordering and Billing Forum guidelines, Multiple Exchange Carrier Access Billing (MECAB) and Multiple Exchange Carrier Ordering and Design (MECOD).

The Company will handle ordering, rating and billing of Access Services under this tariff where more than one Exchange Telephone Company is involved in the provision of Access Service as follows.

(A) For Feature Group D Switched Access Service, when the first point of switching is not in the same Exchange Telephone Company's territory as the Customer premises, the Customer must supply a copy of the order to the Exchange Telephone Company in whose territory the Customer premises is located and any other Exchange Telephone Company(s) involved in providing the service.

Each Exchange Telephone Company will provide the portion of Local Transport to an interconnection point (IP) with another Exchange Telephone Company, and will bill the charges in accordance with its Access Service tariff. The rate for the Transport elements will be determined as set forth in (B) following. All other appropriate charges in each Exchange Telephone Company tariff are applicable.

9.1.5 Ordering, Rating and Billing of Access Services Where More Than One Exchange Telephone Company is Involved (Cont'd.)

(B) The charge for the Local Transport Facility and Termination rate elements for services provided as set forth in Rule 2 preceding are determined as follows:

(1) Determine the appropriate Switched Access Local Transport mileage by computing the airline mileage between the two ends of the Local Transport Facility, as defined in Rule 2. Determine the airline mileage for the Local Transport Facility charge using the V&H method as set forth in Rule 17.

(2) For Feature Groups D Switched Access Service, the Local Transport Facility and Termination charges are determined by using the steps set forth in (a) through (c) following for the total Local Transport-Common Switched Transport charges.

(a) Multiply:

The number of access minutes

by

the number of airline miles as determined in (1) preceding

If the Customer makes or requests material changes in circuit engineering, equipment specifications, service parameters, premises locations, or otherwise materially modifies any provision of the application for service, the Customer's installation fees will be adjusted according to the term and conditions set forth in Rule 3, Access Order Modifications.

9.1.7 Customer Overpayment

The Company will pay interest on a Customer overpayment. Customer overpayment will mean a payment to the Company in excess of the correct charges for service when caused by erroneous billing by the Company. The rate of interest will be the unadjusted interest rate paid on Customer deposits or the late payment penalty rate, whichever is greater. Interest will be paid from the date when the Customer overpayment was made, adjusted for any changes in the deposit interest rate or late payment penalty rate, and compounded monthly, until the date when the overpayment is refunded. No interest will be paid on Customer overpayments that are refunded within thirty (30) days after such overpayment is received by the Company.

10.1 In the case of a dispute between a Customer and the Company as to the correct amount of a bill rendered by the Company for service furnished to the Customer, which cannot be adjusted with mutual satisfaction, the Customer may make the following arrangements:

- 1) First, the Customer may make a request, and the Company will comply with the request, for an investigation and review of the disputed amount.
- 2) The undisputed portion of the bill must be paid by the Due By Date (no sooner than 15 days of the date of presentation) shown on the bill or the service will be subject to disconnection if the Company has notified the Customer by written notice of such delinquency and impending termination.
- 3) If there is still disagreement after the investigation and review by a manager of the Company, the Customer may appeal to the Commission's Consumer Affairs Branch ("CAB") for its investigation and decision. To avoid disconnection of service, the Customer must submit the claim and, if the bill has not been paid, deposit the amount in dispute with CAB within seven (7) calendar days after the date the Company notifies the Customer that the investigation and review are completed and that such deposit must be made or service will be interrupted. However, the service will not be disconnected prior to the Due By Date shown on the bill.
- 4) The Company may not disconnect the Customer's service for nonpayment as long as the Customer complies with (B) and (C) above.
- 5) The Company will respond to CAB's requests for information within ten (10) business days.
- 6) CAB will review the claim of the disputed amount, communicate the result of its review to the Customer and Company and make disbursement of the deposited amount.

11.1 Discontinuance of Service for Cause

The Company may disconnect service for any of the following reasons, without incurring any liability provided it has notified the Customer of its intent, in writing, if applicable, to disconnect service and has allowed the Customer a reasonable time of not less than seven (7) working days, after the date on which the notice is mailed, in which to remove the cause for disconnection.

- (A) Upon nonpayment of any amounts owing to the Company. In the event the Company terminates service for nonpayment, the Customer may be liable for all reasonable court cost and attorneys fees as determined by CPUC or by the court.
- (B) Upon violation of any of the other material terms or conditions for furnishing service the Company.
- (C) Upon condemnation of any material portion of the facilities used by the Company to provide service to a Customer or if a casualty renders all or any material portion of such facilities inoperable beyond feasible repair, the Company, by notice to the Customer, may discontinue or suspend service without incurring any liability.
- (D) Upon the Customer's insolvency, assignment for the benefit of creditors, filing for bankruptcy or reorganization, or failing to discharge an involuntary petition within the time permitted by law, the Company may immediately discontinue or suspend service without incurring any liability.
- (E) Upon any governmental prohibition or required alteration of the services to be provided or any violation of an applicable law or regulation, the Company may immediately discontinue service without incurring any liability.
- (F) In the event of fraudulent use of the Company's network, the Company may without notice suspend or discontinue service. The Customer will be liable for all related costs. The Customer will also be responsible for payment of any reconnection charges.

14.1 Allowances for Interruptions in Service

Except as set forth in 14.1.1(B) preceding and 14.1.2 following, interruptions in service, which are not due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth in 14.1.1 for the part of the service that the interruption affects.

14.1.1 Credit for Interruptions

- (A) A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff. An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

14.1.1 Credit for Interruptions (Cont'd.)

- (B) For calculating credit allowances, every month is considered to have thirty (30) days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

A credit allowance will be given for interruptions of 30 minutes or more. Credit allowances will be calculated as follows:

Interruptions of 24 Hours or Less

Length of Interruption	Interruption Period To Be Credited
Less than 30 minutes	None
30 minutes up to but not including 3 hours	1/10 Day
3 hours up to but not including 6 hours	1/5 Day
6 hours up to but not including 9 hours	2/5 Day
9 hours up to but not including 12 hours	3/5 Day
12 hours up to but not including 15 hours	4/5 Day
15 hours up to but not including 24 hours	One Day

Two or more interruptions of 15 minutes or more during any one 24-hour period will be considered as one interruption.

- (B) interruptions due to the negligence of any person other than the Company, including but not limited to the Customer or other common carriers connected to the Company's facilities;
- (C) interruptions due to the failure or malfunction of non-Company equipment;
- (D) interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;
- (E) interruptions of service during a period in which the Customer continues to use the service on an impaired basis;
- (F) interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements; or

17. 1Application of Rates

17.1.1 Charges Based on Duration of Use

Customer traffic to end offices will be measured by the Company at end office switches. Originating and terminating calls will be measured by the Company to determine the basis for computing chargeable access minutes.

For originating calls over Feature Group D, usage measurement begins when the originating Feature Group D switch receives the first wink supervisory signal forwarded from the Customer's point of termination.

The measurement of originating call usage ends when the originating Feature Group D switch receives disconnect supervision from either the originating end user's end office, indicating the originating end user has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.

For terminating calls over Feature Group D, the measurement of access minutes begins when the terminating Feature Group D switch receives answer supervision from the terminating end user's end office, indicating the terminating end user has answered.

The measurement of terminating call usage over Feature Group D ends when the terminating Feature Group D switch receives disconnect supervision from either the terminating end user's end office, indicating the terminating end user has disconnected, or the Customer's point of termination, whichever is recognized first by the switch.

Access minutes or fractions thereof are accumulated over the billing period for each end office and are then rounded up to the nearest access minute for each end office.

17.1.2 Rates Based Upon Distance

Where the charges for service are specified based upon distance, the following rules apply:

- (1) Distance between two points is measured as airline distance between the wire centers of the originating and terminating telephone lines. The wire center is a set of geographic coordinates, as referenced in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. 17.1 Application of Rates (Cont'd.)

17.1.2 Rates Based Upon Distance (Cont'd.)

- (2) The airline distance between any two wire centers is determined as follows:
- (a) Obtain the "V" and "H" coordinates for each wire center from the above-referenced NECA tariff.
  - (b) Compute the difference between the "V" coordinates of the two wire centers; and the difference between the two "H" coordinates.
  - (c) Square each difference obtained in step (2) above.
  - (d) Add the square of the "V" difference and the square of the "H" difference obtained in step (3).
  - (e) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
  - (f) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

**RULE 17 - MEASUREMENT OF SERVICE**

17.1 Application of Rates (Cont'd.)

17.1.3 Mileage

The mileage to be used to determine the Local Transport Facility monthly rates are calculated on the airline distance between the end office switch where the call carried by Local Transport originates or terminates and the Customer's serving wire center. The V&H coordinates method is used to determine mileage.

The Local Transport Facility mileage rates are shown in Rate Schedule B.1.3 (B) in terms of per mile per access minute. To determine the rate to be billed, first compute the mileage. Should the calculation result in a fraction of a mile, the fraction will always be rounded up to the next whole mile before determining the mileage. Then multiply the mileage by the appropriate Local Transport Facility rate. The amount to be billed will be the product of this calculation (i.e., the number of miles multiplied by the per mile rate) multiplied by the number of access minutes.

**RULE 19 - Legal Requirements for Refusal or Discontinuance of Service**

California Public Utilities Commission Decision No. 91188 in Case No. 4930 requires that each communications utility operating under the jurisdiction of the PUC include the provisions of the rule set forth in Appendix "B" of that Decision as a part of the rules in the Company's tariff schedules. Accordingly, Appendix "B" of Decision No. 91188, Case No. 4930, is quoted herein:

**APPENDIX B**

1. Any communications utility operating under the jurisdiction of this Commission will refuse service to a new applicant and will disconnect existing service to a Customer upon receipt from any authorized official of a law enforcement agency of a writing, signed by a magistrate, as defined by Penal Code Sections 807 and 808, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law. Included in the magistrate's writing will be a finding that there is probable cause to believe not only that the subject telephone facilities have been or are to be used in the commission or facilitation of illegal acts, but that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result.
2. Any person aggrieved by any action taken or threatened to be taken pursuant to this rule will have the right to file a complaint with the Commission and may include therein a request for interim relief. The Commission will schedule a public hearing on the complaint to be held within 20 calendar days of the filing of the complaint. The remedy provided by this rule will be exclusive. No other action at law or in equity will accrue against any communications utility because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of this rule."
3. If communications facilities have been physically disconnected by law enforcement officials at the premises where located, without central office disconnection, and if there is not presented to the utility the written finding of a magistrate, as specified in paragraph 1 of this rule, then upon written request of the Customer the utility will promptly restore such service.

4. Any concerned law enforcement agency will have the right to Commission notice of any hearing held by the Commission pursuant to paragraph 2 of this rule, and will have the right to participate therein, including the right to present evidence and argument and to present and cross-examine witnesses. Such law enforcement agency will be entitled to receive copies of all notices and orders issued in such proceeding and will have both (1) the burden of proving that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law and that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result, and (2) the burden of persuading the Commission that the service should be refused or should not be restored.
5. The utility, immediately upon refusal or disconnection of service in accordance with paragraph 1 of this Rule, will notify the applicant or Customer in writing that such refusal or disconnection has been made pursuant to a request by a law enforcement agency, naming the agency, and will include with said notice a copy of this rule together with a statement that the applicant or Customer may request information and assistance from the Commission at its San Francisco or Los Angeles office concerning any provision of this rule.
6. At the expiration of 15 days after refusal or disconnection of service pursuant to paragraph 1 of this rule, the utility, upon written request of the applicant or Customer, will provide or restore such service unless the law enforcement agency concerned will have notified the Company in writing of its objection to such provision or restoration of service, in which event service may be provided or restored only in a complaint proceeding pursuant to paragraph 2 of this rule. At the time of giving any such notice of objection, the law enforcement agency will mail or deliver a copy thereof to the applicant or Customer. Nothing in this paragraph will be construed to preclude the granting of interim relief in a proceeding initiated pursuant to paragraph 2 of this rule.
7. Each contract for communications service, by operation of law, will be deemed to contain the provisions of this rule. Such provisions will be deemed to be a part of any application for communications service. Applicants for service will be deemed to have consented to the provisions of this rule as a consideration for the furnishing of such service.

**RULE 20 - GENERAL RULES APPLICABLE TO PROVISION OF SERVICE**

20.1 Undertaking of the Company

20.1.1 Terms and Conditions

- (C) In any action between the parties to enforce any provision of this tariff, the prevailing party will be entitled to recover its legal fees and court costs from the non-prevailing party in addition to other relief a court may award.
- (D) Customers may be required to enter into written service orders which will contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. Customers will also be required to execute any other documents as may be reasonably requested by the Company.
- (E) This tariff will be interpreted and governed by the laws of the State of California without regard for its choice of laws provision.

**RULE 20 - GENERAL RULES APPLICABLE TO THE PROVISION OF SERVICE  
(Cont'd.)**

20.1 Undertaking of the Company (Cont'd.)

20.1.2 Liability of the Company

- (A) The Company shall be indemnified and held harmless by any subscriber, user or by any other entity against claims for libel, slander or the infringement of copyright arising from the material transmitted over its services; and against all other claims arising out of any act or omission of a subscriber or of any other entity in connection with the services provided by the Company.
- (B) The Company is not liable for any act or omission of any entity furnishing facilities or services connected with or provided in conjunction with the services of the Company.
- (C) The Company shall not be liable for any personal injury, or death of any person or person, and for any loss or damage sustained by reason of acts, mistakes, omissions, errors or defects in providing its services, whatever shall be the cause which is not the direct result of the Company's gross negligence or willful misconduct.
- (D) Except as otherwise provided herein, no liability for indirect, incidental or consequential damages shall attach to the Company, its agents, servants or employees, for damages or costs arising from errors, mistakes, omissions, interruptions, failures, delays, or defects or malfunctions of equipment or facilities, in the course of establishing, furnishing, maintaining, rearranging, moving, terminating, or changing the service or facilities (including the obtaining or furnishing of information in respect thereof or with respect to the customer or users of the service or facilities) in the absence of willful and wanton conduct or gross negligence, whether a claim for such liability is premised upon breach of contract, breach of warranty, fulfillment of warranty, negligence, strict liability, misrepresentation, fraud, or any other theories of liability.

**RULE 20 - GENERAL RULES APPLICABLE TO THE PROVISION OF SERVICE  
(Cont'd.)**

20.1 Undertaking of the Company (Cont'd.)

20.1.2 Liability of the Company (Cont'd.)

(E) The Company shall not be liable for any failure of performance due to causes beyond its control, including, without limitation, acts of God, fires, floods or other catastrophes, national emergencies, insurrections, riots or wars, strikes, lockouts, work stoppage or other labor difficulties, acts or omissions of other telecommunications carriers or service providers, and any law, order, regulation or other action of any governing authority or agency thereof.

(F) The Company shall not be liable to a customer or service user or any other person, firm, entity, for any failure to perform its obligations under this Schedule due to any cause or causes beyond its reasonable control, which is not the direct result of the Company's gross negligence or willful misconduct.

(G) The remedies set forth herein shall not be exclusive and the Company at all times shall be entitled to all rights available to it under either law or equity.

20.1.3 Claims

The Company will be indemnified and saved harmless by the Customer from and against all loss, liability, damage and expense, including reasonable counsel fees, due to claims of libel, slander, or infringement of copyright in connection with the material transmitted over the Company's facilities; and any other claim resulting from any act or omission of the Customer or end users of the Customer relating to the use of the Company's services or facilities.

20.2 Prohibited Uses

- (A) The services the Company offers will not be used for any unlawful purpose or for any use for which the Customer has not obtained all required governmental approvals, authorization, licenses, consents and permits.
- (B) The Company may require applicants for service who intend to use the Company's offering for resale and/or for shared use to file a letter with the Company confirming that their use of the Company's offerings complies with relevant laws and regulations, policies, orders, and decisions.
- (C) The Company may require a Customer to immediately shut down its transmission if such transmission is causing interference to others.
- (D) A Customer, joint user, or authorized user may not assign, or transfer in any manner, the service or any rights associated with the service without the written consent of the Company. The Company will permit a Customer to transfer its existing service to another entity if the existing Customer has paid all charges owed to the Company for regulated access services. Such a transfer will be treated as a disconnection of existing service and installation of new service, and non-recurring installation charges as stated in this tariff will apply.

20.3 Obligations of the Customer

20.3.1 Jurisdictional Report Requirements

- (A) For Feature Group D Switched Access Service(s), the Company, where jurisdiction can be determined from the call detail, will determine the projected interstate percentage as follows. For originating access minutes, the projected interstate percentage will be developed on a monthly basis by end office trunk group when the Feature Group D Switched Access Service access minutes are measured by dividing the measured interstate originating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating access minutes when the call detail is adequate to determine the appropriate jurisdiction. For terminating access minutes, the Customer has the option to provide the Company with a projected PIU factor. Customers who provide a PIU factor will supply the Company with an interstate percentage of the Feature Group D terminating access minutes for each account to which the Customer may terminate traffic.

**RULE 20 - GENERAL RULES APPLICABLE TO THE PROVISION OF SERVICE  
(Cont'd.)**

20.3 Obligations of the Customer (Cont'd.)

2.3.1 Jurisdictional Report Requirements (Cont'd.)

(A) (Cont'd.)

Should the Customer not supply a terminating PIU Factor, the data used by the Company to develop the projected interstate percentage for originating access minutes will be used to develop projected interstate percentage for such terminating access minutes. When a Customer orders Feature Group D Switched Access Service, the Customer will supply a projected interstate percentage of use for each end office trunk group involved to be used in the event that originating call details are insufficient to determine the jurisdiction for the call. This percentage will be used by the Company as the projected interstate percentage for such call detail. For purposes of developing the projected interstate percentage, the Customer will utilize the same considerations as those set forth in Rule 20.3.1(B).

The Company will designate the number obtained by subtracting the projected interstate percentage for originating and terminating access minutes from 100 (100 - projected interstate percentage = intrastate percentage) as the projected intrastate percentage of use.

(B) For purposes of developing the projected interstate percentage, the Customer will consider every call that enters the Customer's network at a point within the same state as the state where the called station is located to be intrastate and every call that enters the Customer's network at a point in a state different from the state in which the called station is located to be interstate.

(C) These whole number percentages will be used by the Company to apportion the use, rates, and/or nonrecurring charges between interstate and intrastate until a revised report is received.

**RULE 20 - GENERAL RULES APPLICABLE TO THE PROVISION OF SERVICE  
(Cont'd.)**

20.3 Obligations of the Customer (Cont'd.)

20.3.1 Jurisdictional Report Requirements (Cont'd.)

- (D) The projected interstate percentage of use will be used to determine the charges as follows:

The number of access minutes for a trunk group will be multiplied by the projected interstate percentage of use to determine the interstate access minutes. (i.e., number of access minutes x projected interstate percentage of use = interstate access minutes). The number of interstate access minutes so determined will be subtracted from the total number of access minutes (i.e., number of access minutes - interstate access minutes = intrastate access minutes). The intrastate access minutes for the group will be billed as set forth in Rate Schedule A.

- (E) Effective on the first of January, April, July and October of each year, the Customer may update the jurisdictional reports that require a projected interstate percentage. The Customer will forward to the Company, to be received no later than 20 calendar days after the first of each such month, a revised report showing the interstate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for interstate and intrastate use. Except as set forth in Rule 20.3.1(A) preceding where jurisdiction can be determined from the recorded message detail, the revised report will serve as the basis for the next three months billing and will be effective on the bill date in the following month (i.e., February, May, August, and November) for that service. No prorating or back billing will be done based on the report. If the Customer does not supply the report, the Company will assume the percentage to be the same as that provided in the last quarterly report. For those cases in which a quarterly report has never been received from the Customer, the Company will assume the percentage to be the same as that provided in the order for service as set forth in Rule 2.

**RULE 20 - GENERAL RULES APPLICABLE TO THE PROVISION OF SERVICE  
(Cont'd.)**

20.3 Obligations of the Customer (Cont'd.)

20.3.3 Jurisdictional Report Requirements (Cont'd.)

- (F) The Customer reported projected interstate percentage of use as set forth in Rule 20.3.1(A) preceding will be used for the apportionment of any monthly rates or nonrecurring charges associated with Feature Group D Switched Access Service until the end of the quarter during which the service was activated. Thereafter, a projected interstate percentage for such apportionment will be developed quarterly by the Company based on the data used to develop the projected interstate percentage of use as set forth in Rule 20.3.1(A) preceding. Where call detail is insufficient to make such a determination, the Customer will be requested to project an interstate percentage of use to be used by the Company for such apportionment.
- (G) The Customer will keep sufficient detail from which the percentage of interstate use can be ascertained and upon request of the Company make the records available for inspection. Such a request will be initiated by the Company no more than once per year. The Customer will supply the data within thirty (30) calendar days of the Company request.
- (H) The Customer may provide an additional percentage of interstate use for Entrance Facility and Direct Trunked Transport subject to the reporting requirements previously listed in this section. The percentage of interstate use may be provided per individual facility or at the billing account level. Should the Customer not provide a percentage of interstate use, the Company will use the reported Feature Group D aggregated percentage of interstate use.
- (I) In the absence of both a customer provided PIU, and the necessary jurisdictional information in the call detail to determine jurisdiction, the default PIU will be zero.
